EDUCATION

De La Salle University

Sep 2024 – Aug 2028*

Bachelor of Science in Computer Science, Major in Software Technology

GPA: 3.64 / 4.00

Relevant Coursework: Software Engineering, Human Computer Interactions (UX), Web Applications, Database Management, Intelligent Systems, Algorithms and Complexity

PROJECTS

Asceoft Talentados: Applicant Tracking System (ATS)

May 2026 – Aug 2026

Backend Developer | TypeScript, Next.js, Express.js, NextAuth.js, Supabase, Prisma ORM

- Built backend APIs for job contracts, recruiter-to-job assignment, guest applications, screening evaluations, and interview schedules, enabling end-to-end recruitment workflows in the ATS.
- Connected the Express/Prisma backend to the Next.js dashboard and public pages, delivering functional job posting, application, evaluation, and scheduling experiences.
- Integrated Supabase Storage for company logos and applicant resumes, providing validated cloud-based file uploads and persistent file access.

Statement of Account (SOA) Manager

Apr 2026 – Jul 2026

Full Stack Developer | React, TypeScript, Tailwind CSS, Supabase

- Designed and engineered a responsive billing management web application to centralize and replace an error-prone, Excel-based Statement of Account (SOA) creation and management workflow.
- Integrated Supabase (PostgreSQL & Auth) to manage relational database schemas for statements, items, and clients, implementing multi-employee authentication with email-based password recovery.
- Developed dynamic editor and ledger interfaces to enable real-time statement editing, cross-client transaction filtering, and on-the-fly PDF invoice generation and exports.

Taftics: Establishment Review Web Application

Jan 2026 – Apr 2026

Full Stack Developer | JavaScript, React, Bootstrap, Express.js, Node.js, MongoDB, Cloudinary

- Designed and built React components for the landing, browse, establishment, write review, and individual review pages, enabling query-based results and dynamic review interactions.
- Integrated Cloudinary with implemented backend routes/controllers, schema updates, and error-handling to provide cloud-based image and video uploads for reviews and user profiles.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C, C++

Frontend: React, Next.js, Tailwind CSS, shadcn/ui, Radix UI, Motion, Bootstrap, Vite, HTML, CSS

Backend: Node.js, Express.js, Prisma ORM, NextAuth.js

Database: Supabase, MongoDB, MySQL

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Figma, Vercel, Arduino IDE
